Hi,

Regarding your questions, as annoying as it is, that is working as designed.

Please let us know if there are any further questions or if the pmr may be closed.

Thanks,
 Steve

Hi Team,

Greetings!

I have a general query on the SST privileges screen. (OS 7.2)

```

Work with Service Tools User IDs                                     System:
Type option, press Enter.
 1=Create          2=Change password      3=Delete
 4=Display         5=Enable                6=Disable
 7=Change privileges 8=Change description  9=Link/Remove link

Opt User ID      Description                                     Status
-----
IBMSECGK        IBMIN008952/I/KUMAR GANESH                                     Enable
IBMSECGM        NL/I/054170/MAATHUIS GERARD                                     Enable
IBMSECHL        IBMBE4273/I/LEEMANS HANS                                       Enable
IBMSECHR        IBMIN02468V/I/HR HEMA                                           Enable
IBMSECJK        NL/I/48656/IBM/KOOPMAN JEROEN                                    Enable
IBMSECJT        IBMBE1394/I/THIJS JOS                                           Enable
IBMSECK         IBMIN03599U/I/KUTTAN SANJUNATH                                   Enable
IBMSECKK        IBMIN06437I/I/SANGEM KIRAN KUMAR                               Enable
IBMSECKN        IBMIN06571S/I/H N KAVYA                                         Enable
IBMSECHK        IBMIN09449G/I/KUDALE MAHESH                                     Enable
  
```

After making a changes in the privileges in above screen shot as an example for IBMSECHL profile and then I hit F12 to come back and continue to make changes in next profile.

But the screen is moving back to first page everytime. And again I have to do page down couple of times to modify IBMSECHR (next profile) and so on.

Is there any fix for this that screen should remain on the current page after making the changes in some profile, rather than moving to the first .

Work with Service Tools User IDs System: BVL

Type option, press Enter.

1=Create	2=Change password	3=Delete
4=Display	5=Enable	6=Disable
7=Change privileges	8=Change description	9=Link/Remove link

Opt	User ID	Description	Status
[]	BCRS	BCRS SUPPORT	Enabled
[]	HSA	SUPPORT	Enabled
